GBP CLEANERS FOR FACTORY TOOLS AND SMALL PARTS

The GBP industrial cleaners are developed in close cooperation with customers and specialists within the area of Cleaning Techniques.

Cleaning of machine- and motor parts prolongs their function. We have been anxious not only to find the most efficient way to clean them, but also to save you time and money. A quick, efficient and reliable cleaning process combined with competitive prices offer you an economical solution.

The GBP cleaners are equipped with a ventilating cover and are easy to connect to your existing ventilation system. Our range of accessories also offer separate ventilators. The quality of your working environment increases with the purchase of a GBP cleaner.

Experience, know-how, and modern GBP machinery ensure you a high and even quality. These are important factors to consider when choosing a supplier.

MICROCLEAN

The smallest cleaner in our program is ideal for use in any motor repair shop, where soil, grease or oil is to be removed.

MICROCLEAN has a well designed ventilation system that is effective for manual cleaning, a spray gun, which is easy to manoeuvre, an electrical system totally insulated from the fluid and a closed off workspace preventing leakage.

The fluid is recycled automatically and cleaned using sedimentation.

MICROCLEAN can easily be fitted to a wall or placed on a workstation.

A degrease with a flash point over 70°C must be used.

Danger

Do not place any of our machines in rooms where volatile solvents or inflammable gases are stored. Do not mix the wash liquid with gasoline, thinner acetone or similar products.

It may cause an explosion!

Warning

The flash point on liquid used for all our machines **must exceed 70°C (158°F)**. Use caution with lighters, welding sparks or similar.

It may cause a fire!

When diluting the degreaser with water make sure to pour the water into the machine first.

Danger

Do not place the machine in wet or humid rooms

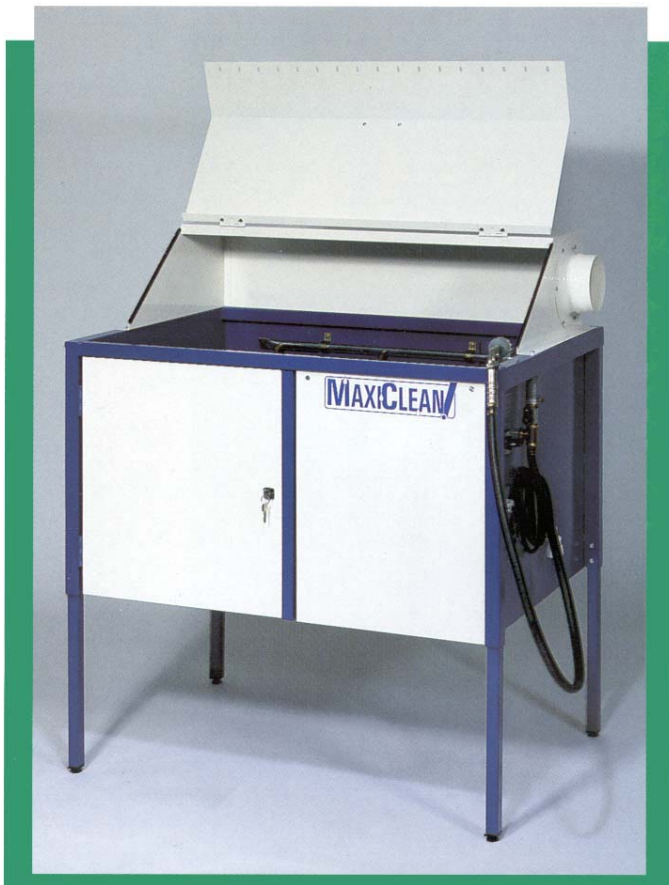

It may cause flash over!

CE 2002

All GBP Washers are CE certified

SAVE TIME AND IMPROVE THE WORKING ENVIRONMENT

MAXICLEAN

MAXICLEAN has two cleaning systems, which can be used separately or integrated, a well designed ventilation system, a ventilating cover, which easy to connect to existing ventilation system, a spray gun that is easy to grip and manoeuvre, an electrical system, which is totally insulated from the liquid and a closed off workspace preventing leakage.

The parts can be cleaned either in a closed area, where the liquid is automatically sprayed on the part by three nozzles or placed on a wash board and cleaned manually with a spray-gun.

The fluid is recycled automatically and cleaned using sedimentation. Ventilation hose and castors are available as accessories.

A degreaser with a flash point of over 70°C must be used.

MASTERCLEAN

MASTERCLEAN has two cleaning systems, which can used separately or integrated, a well designed ventilation system a spray gun that is easy to grip and manoeuvre an electrical system, which is totally insulated from the liquid and a closed off workspace preventing leakage.

MASTERCLEAN is easy to connect to existing ventilation system.

The parts can be cleaned either in a closed area, where the liquid is automatically sprayed on the part by six nozzles or placed on a wash bench and cleaned manually with a spray-gun.

The liquid is recycled automatically and cleaned using sedimentation. Ventilation hose and castors are available as accessories.

A degreaser with a flash point of over 70°C must be used.

TECHNICAL INFORMATION

Description	Part No. MICROCLEAN	Part No. MAXICLEAN	Part No. MASTERCLEAN
Cleaning area (wxdxh)	515x170x335 mm	900x410x310 mm	770x400x370 mm
Connection piece for ventilation	1 Piece	1 Piece	(Closed cover) 1 Piece
Number of nozzles (above)	-	3 PCs	3 PCs
Cleaning table (WxD)	515x340 mm	930x230 mm	840x200 mm
Max weight of parts to be cleaned	20 kg	100 kg	100 kg
Height of cleaning table	-	830 mm	870 mm
Pump capacity	28 l/min	28 l/min	28 l/min
Number of pumps	1	1	3
Spray gun with brush	1	1	1
Tank volume	8 l	30 l	30 l
Outside measurements Without castors	590x250x625 mm	970x700x1130 mm	1010x710x1300 mm
Weight of machine	24 kg	72 kg	96 kg
Strainer, sedimentation	1	1	1
Pump, net strainer	1	1	1
Power flex 220-240 V/50 Hz	85 watt	85 watt	3x85 watt
Cleaning liquid, cold Degreasing or similar With flashpoint of 70 degrees C	X	X	X

ACCESSORIES

Part No. Description	Microclean	Maxiclean	Masterclean
36185 Ventilation fan		X	X
36190 Ventilating hose 6 m	X		
36 186 Cleaning basket 420x270x190 mm		X	X
36 188 Cleaning basket 250x120x90 mm		X	X
36 191 Set of castors		X
